

'ABOUT US'

Iowa-Illinois Chapter National Defense Industrial Association (NDIA)

The National Defense Industrial Association (NDIA) is America's leading Defense Industry association promoting national security. It is a non-partisan, non-profit association headquartered in Arlington, Virginia. The Iowa-Illinois Chapter, as an arm of the national association, provides geographic coverage for Iowa and the western 1/3 of Illinois, furthering the national objectives and policies. Our mission is to:

- *Champion* issues that contribute to the strength, resiliency and capacity of the industrial base
- *Build* a vigorous, responsive and collaborative community in support of defense and national security
- *Convene* legal and ethical forums for exchange of ideas, information, viewpoints and capabilities

Our Chapter, started in 1945, is dedicated to a strong national defense through industrial preparedness. We particularly have a long history (see "[Chapter History](#)") of focused efforts in support of the industrial base, both private and government's organic capabilities. We locally accomplish this support primarily by facilitating the open exchange of ideas among government and industry on topical issues through seminars and symposiums we host. Those direct activities coupled with our other community involvement provide a heightened awareness of our Chapter and its mission. The following listing synthesizes both our Chapter's areas of focus and level of involvement:

- **SEMINARS/SYMPOSIUMS/WORKSHOPS**
 - **11th Annual (TaxSlayer Center) Midwest Government Contracting Symposium**, 23-24 May 2018
