

NDIA Iowa-Illinois Chapter
12TH ANNUAL MIDWEST GOVERNMENT
CONTRACTING SYMPOSIUM

MAY 22-23, 2019

TaxSlayer Center
1201 River Drive
Moline, IL 61265

Did you know that Congress and the President passed a \$716 billion dollar defense budget for 2019?

The time is now to act on learning more about doing business with agencies located on the Rock Island Arsenal or contract opportunities issued by these agencies.

2019 offers a condensed 2 day format and still delivers the valuable content you expect. The planning team is adding new elements and opportunities for government contracting including:

- Integrating EAGLE/Industry Days into the 2-day Agenda
- Adding contracting opportunities for the Food Service and Transportation Industries.
- The Advanced Planning Briefing for Industry (APBI) requirements element to be focused on Q&A
- Attendees will gain access to a broader community of government and industry personnel.
- Keynote speaker Joshua Frank sharing award winning techniques and strategies that have directly helped small businesses win more than \$2B in government contracts.
- Content will include government/industry panels discussing hot topics.
- The Wednesday evening Networking Reception will be held at the Rock Island Arsenal Museum. Plan to attend to network with senior RIA Leaders! Transportation included.

What makes this symposium unique from other such events? The variety of product and service opportunities covered and the access to senior leadership from these requirement and procurement agencies. Key personnel and contracting staff from these agencies will be on hand for networking and connecting.

For more information about this event and online registration, click [Here](#) or visit the chapter website: <http://www.ndia-ia-il.org/index.html>. Join NDIA!!
